**We're Experts**

In high-quality disposable tableware solutions for retailers and the hospitality industry.

**We're Innovators**

With a strong focus on quality testing, local supply, premium customer service and competitive pricing.

**We Care**

About the environment and we're committed to sourcing environmentally sustainable party options.

We're here to help you "clean up."

With a focus on creating a sustainable footprint for future generations, the Single-Use Plastic bans are a strategy designed to accelerate Australia's transition towards a circular economy.

With this in motion, the last few years have seen sweeping changes within the packaging and disposable space. Our range of eco-friendly brands have developed in line with these changes and cater to a variety of preferences to meet different occasion requirements.

Our goal is to help you navigate this transition into a circular economy and to make your eco-journey as smooth as possible.

Establish an eco-friendly image. Go circular.

It's time for us all to move forward on the change journey towards a circular economy.

A circular economy involves sharing, reusing, repairing and recycling existing materials and products as long as possible.

Our Partyware range allows consumers to enjoy their outdoor picnics and BBQs with a clean conscience. Harnessing new materials and formats will create a more sustainable footprint.

Partyware's offer will convert traditional Partyware products into more eco-friendly options. The key driver is to keep these lines in circulation, so they don't end up in landfill.

Nature wastes nothing. Everything is food for something else. A leaf that falls from a tree feeds the forest.

Current status of plastic legislation – Sept 22
